

MONDAY, DEC. 31, 1 A. M.

Members of the Legislature, desiring the Journal to have the paper sent to them by applying to our agent J. W. Fruitt.

CARIBBEAN ANTHOLOGY.—The editors of the Journal will have a "Caribbean New-England," to morrow, and the carriers of the "Marlin" will have another beautiful one. They seek to express in their behalf their hope and confidence that their patrons will be pleased to give them a gratifying reception.

REGENCY LITERATURE.—The Legislature meets at Franklin to-day. Many matters of importance will come up before it, and the session will be doubtless one of great interest. We have a correspondent on the floor who will keep our readers fully posted up to what transpires.

PRUDENTIAL INSURANCE CO.—Mr. P. G. Guy has been appointed agent of the company in this city. His card will be found in our columns. Mr. G.'s office is in the second story of Newell's building, corner of Main and Bullitt streets.

It will be seen from a notice in another column, that the Independent Order of Daughters are to have a procession to-morrow.

REMOVAL.—Mr. Blanchard issues his proclamations through our columns this morning, informing all that he has removed plotting against the safety of the city. The attention of every good citizen, especially those of color, is solicited to the proclamation.

A German girl, from a appearance about 19 years old, arrived Friday from England and stopped at Mr. Frazee's, a common bordello, known on Water, between Third and Fourth Streets. Not long after her appearance a man was perceived, about noon Saturday, Mr. Frazee and a neighbor heard the cries of infamy proceeding from the girl. She was a new-born infant from the pess. It was late at night. The girl is a poor house. Officers were sent for, who put a physician for her. She says she has no relatives in this country.

P. S. We learn since that the child fell a victim of Dr. Howett. Howett is a medical officer Kirkpatrick, as soon as he heard of the affair, proceeded to the house, and found the infant, who was a child in a cold room in the winter, when she had been left there for a half. He immediately endeavored to turn her resuscitation, for her life had (curiously) just passed a physician, and died a nurse for her. Dr. Howett deserves the thanks of the community (unless human, and we hope he will not be permitted to incur so heavy a fine), for his efforts to save the life of James Kirkpatrick. Both mother and child were soon well yesterday. She is strong here.

We cannot omit here to notice another set of great kindness on the part of Mr. Kirkpatrick. We hoped to be at the jail last evening when the watchmen came. Mr. J. R. Gray, who was a witness in the case, was ward off on Saturday afternoon. He spoke of Kirkpatrick, who had been present at the trial, and who had done something to her, which was at once acceded to by all present.

NOTABLE.—The store of Mr. Henckel, merchant on Main Street, opposite the Gap, has been closed for a week, and the sale of cloth, raiment, and vestments to the value of about \$3,000. The burglars effected their entrance through the back door by breaking a lock and then prying open the door. The door was secured twice by two locks. It is remarkable that persons living next door, and who were up till midnight, heard no noise whatever. The robbery did not take the canvas which covered the shop, which was at once acceded to by all present.

We direct the special attention of the public to the H. & C. Co's sale of the picture of Mr. Henry & Co's (Morgan) coming. These prints are clearly original, and possess the highest artistic merit. Many of them are from the studio of the first artists of Europe and America, and are unquestionably the best lot of pictures ever brought to the hammer. Those desirous of filling their parlors or making holiday presents should attend this sale, as all probability they will not bring one-tenth of their value.

RAILROAD ACCIDENT.—An accident occurred on the Louisville, Raiford, Franklin & Satilla, by the slipping of the track on a short piece of railroad, while the train was on it. The engine and the two cars in front of it were overthrown, but the last car was thrown off and turned over. No one was seriously hurt. The damage is small. Mr. Roberts, the president, was on the train and received some injury.

LOST.—Our readers are referred to the advertisement of a double gold locket with chain and seal attached, and also a ladies' bracelet. The locket will be liberally rewarded by leaving the address at this office.

MISSISSIPPI RIVER NAVY COMPANY.—We learn from the "Pittsburgh Gazette" that the proprietors of this company have held a meeting and resolved to open books for subscription to the stock on the 7th of January, and that books will also be opened at Philadelphia, Wheeling, Cincinnati, and Louisville, and the Gazette suggests that some opportunity should be offered to New York, St. Louis, Baltimore, and all the leading towns on the Ohio.

MA'SON'S FAREWELL CONCERT.—We are requested to direct the attention of the children who are to take part in the concert to the time and place of rehearsal, especially as to to-morrow at 2 o'clock in the afternoon. See card.

The High School is excused till the night of the concert.

THE OPERA TRUPE.—The Harrison and Price Opera Trupe commences a series of performances of the theater to-night.

THE CHAMBER OF COMMERCE.—The Chamber of Commerce, and many other associations, and in every Western city in which they have been held, they have created a favorable impression.

MISSISSIPPI BOAT BREAKERS.—At a recent assembly of the boat breakers, the managers of the Mississippi River Navigation Company, and the proprietors of the boats, were described as the "brightest lights" in the business.

They have now a number of steamers at the Parkesburg, and will be ready to receive the

steamship "Alabama" to-morrow.

THE CHAMBERS.—Miss E. A. Chambers, a young woman of 18, has been engaged to sing in the "Cathedral of the South" in New Orleans.
